- HP Engineering has grown in the past four years from two people in one small office in Rogers, AR, to 13 people with offices in Rogers and Fayetteville, AR and Tulsa, OK.
- HP Engineering Inc. currently holds licenses in 43 states and Puerto Rico. In addition, we are currently looking at expanding into other international markets.
- We design in both Autocad and Revit MEP to meet the needs of our client.

At HP Engineering Inc. we strive to meet the needs of our clients and exceed their expectations. We will take a look each month at a project we've recently

completed. This month's project is the Razorback Women's Soccer Locker Room. The Architect of record is Polk Stanley Wilcox Architects. Every project within the athletic department is important because it will hopefully attract future student athletes that can help the program and represent the state in a positive manner. While

this project did not require a lot of creativity from our firm, it was important to deliver a quality HVAC system that would

provide the student athletes with a comfortable place to "hang out" and an environment that would

help them prepare for each game and / or practice. Also, we always strive to provide very energy efficient systems. We were able to accomplish all of this while meeting the budget needs of this project. At HP Engineering Inc., we appreciate the opportunity to give back to the community through educational and athletic projects. We continue to add to our experience in this market and we look forward to our next project.

This section will provide useful information and sometimes it will be just for fun...

Facts, Info, etc...

### College Football Predictions:

It's that time of year. Spirits are high, everybody's team is undefeated and has a chance at the national championship... So we thought we would dedicate this

space for 2011 football predictions. Our firm is primarily made up of University of Arkansas fans with one KSU fan. So bear with us OU, OSU and Mizzou fans... Here goes:

**Brandon** thinks the Hogs will go 11-1 and win the SEC West. (Toughest division in CFB?).

**Jamison** is a little more pessimistic and picks the Razorbacks to finish 8-4. Clearly we are working him too hard.

**Richard** is seeing an SEC Cham-

ptionship in the Hog's future with a final record of 11-1. Of course this means a possible shot at all the marbles..He also threw in a bonus prediction, stating the Sooners would finish 9-3.

**Dan's** pick was spot on, a 10-2 finish ( I happen to agree with Dan, due to the road schedule). Then there is **Kory**.. our lone KSU fan, who feels he will have to endure a 6-6 season.
